

5 NOV 1982

MEMORANDUM FOR: Chief, Policy and Plans Group

STAT FROM:

Deputy Chief, Physical Security Division

SUBJECT: Revision of DCIDs 1/7 and 1/20

1. It is suggested that paragraphs 3 and 4 of the proposed revision of DCID 1/7 be reviewed to determine if there is a need for further clarification. Paragraph 3.b., indicates that Intelligence Community organizations are authorized, as an exception to the "third agency rule", to use each other's classified intelligence in their own reports and to disseminate them to other Intelligence Community organizations without permission of the originator as long as the information is not used in its original form. Unlike paragraph 5 on Foreign Dissemination there are no specific provisions regarding what must be altered or deleted and that would possibly be useful if only in general terms. With no further explanation, the current wording could be interpreted in an extreme case to only require a different type size or photo reduction of the original to meet the simple requirement of not being used in its "original form."

2. Paragraph 4 of the proposed revision of DCID 1/7 pertains to the use and dissemination of classified intelligence by other U.S. organizations. It stated that classified intelligence will not be released in its original form to U.S. organizations outside the Intelligence Community without permission of the originator. It does not indicate what restrictions, if any, apply to the release of classified intelligence that is not in its original form, or what "original form" means, and could result in gross misinterpretation or misunderstanding.

3. The proposed revision of DCID 1/20 was also reviewed and no suggestions or comments were developed.
